TOUCHSTREAM -- PORTABLE LIVE STREAMING APPLIANCE		
MODEL NUMBER	DESCRIPTION	prijs in Euro
TouchStream LE Models		
TouchStream LE	Analog portable live video and audio streaming appliance with intuitive touch-screen interface for VC-1/Windows Media/Microsoft Silverlight streaming. One standard definition video channel selected from Composite and S-video inputs; two stereo audio channels selected from two Balanced stereo and one Unbalanced stereo input. Includes 1st year support.	3.350,00
TouchStream LE SDI	SDI portable live video and audio streaming appliance with intuitive touch-screen interface for VC-1/Windows Media/Microsoft Silverlight streaming. One standard definition SDI video channel; two stereo channels of embedded SDI audio. Analog video (Composite, S-video, Component), analog audio (Balanced, Unbalanced) and AES digital audio inputs available with optional breakout cable or breakout box. Includes 1st year support.	4.995,00
TouchStream LE HDi	HD-compatible portable live video and audio streaming appliance with intuitive touch-screen interface for VC-1/Windows Media/Microsoft Silverlight streaming. One video channel from HD/SD SDI input; four stereo channels of embedded SDI audio. Compatible with SD, 720p, 1080p and 1080i inputs; HD inputs may require down-conversion (automatically performed within TouchStream) to lower resolution or frame rate for streaming output. AES digital audio inputs available with optional breakout box. Includes 1st year support.	7.495,00
TouchStream Web Models		
TouchStream Web	Analog portable live video and audio streaming appliance with intuitive touch-screen interface for web streaming applications. Supports Adobe Flash (H.264/AVC with AAC audio), Microsoft Silverlight (VC-1, WMV) and QuickTime (H.264/AVC via Darwin server) powered web experiences. On2 VP6 (Flash 8) support available as an option. One standard definition video channel selected from Composite and S-video inputs; two stereo audio channels selected from two Balanced stereo and one Unbalanced stereo input. Includes 1st year support.	4.175,00
TouchStream Web SDI	SDI portable live video and audio streaming appliance with intuitive touch-screen interface for web streaming applications. Supports Adobe Flash (H.264/AVC with AAC audio), Microsoft Silverlight (VC-1, WMV) and QuickTime (H.264/AVC via Darwin server) powered web experiences. On2 VP6 (Flash 8) support available as an option. One standard definition SDI video channel; two stereo channels of embedded SDI audio. Analog video (Composite, S-video, Component), analog audio (Balanced, Unbalanced) and AES digital audio inputs available with optional breakout cable or breakout box. Includes 1st year support.	5.850,00
TouchStream Web HDi	HD-compatible portable live video and audio streaming appliance with intuitive touch-screen interface for web streaming applications. Supports Adobe Flash (H.264/AVC with AAC audio), Microsoft Silverlight (VC-1, WMV) and QuickTime (H.264/AVC via Darwin server) powered web experiences. On2 VP6 (Flash 8) support available as an option. One video channel from HD/SD SDI input; four stereo channels of embedded SDI audio. Compatible with SD, 720p, 1080p and 1080i inputs; HD inputs may require down-conversion (automatically performed within TouchStream) to lower resolution or frame rate for streaming output (dependent on output format). AES digital audio inputs available with optional breakout box. Includes 1st year support.	8.325,00
TouchStream Mobile Models		
TouchStream Mobile	Analog portable live video and audio streaming appliance with intuitive touch-screen interface for streaming to mobile devices. Supports 3GPP formats (H.263, H.264, MPEG-4 Part 2 video with AAC and AMR audio). One standard definition video channel selected from Composite and S-video inputs; two stereo audio channels selected from two Balanced stereo and one Unbalanced stereo input. Includes 1st year support.	4.995,00
TouchStream Mobile SDI	SDI portable live video and audio streaming appliance with intuitive touch-screen interface for streaming to mobile devices. Supports 3GPP formats (H.263, H.264, MPEG-4 Part 2 video with AAC and AMR audio). One standard definition SDI video channel; two stereo channels of embedded SDI audio. Analog video (Composite, S-video, Component), analog audio (Balanced, Unbalanced) and AES digital audio inputs available with optional breakout cable or breakout box. Includes 1st year support.	6.695,00
TouchStream Mobile HDi	HD-compatible portable live video and audio streaming appliance with intuitive touch-screen interface for streaming to mobile devices. Supports 3GPP formats (H.263, H.264, MPEG-4 Part 2 video with AAC and AMR audio). One video channel from HD/SD SDI input; four stereo channels of embedded SDI audio. Compatible with SD, 720p, 1080p and 1080i inputs; HD inputs may require down-conversion (automatically performed within TouchStream) to lower resolution or frame rate for streaming output (dependent on output format). AES digital audio inputs available with optional breakout box. Includes 1st year support.	9.175,00
TouchStream TS Models		
TouchStream TS	Analog portable live video and audio streaming appliance with intuitive touch-screen interface for Transport Stream output applications (such as IPTV set-top boxes). Supports H.264/AVC and MPEG-2 in Transport Streams, plus H.264/AVC and AAC audio elementary streams. One standard definition video channel selected from Composite and S-video inputs; two stereo audio channels selected from two Balanced stereo and one Unbalanced stereo input. Includes 1st year support.	7.495,00
TouchStream TS SDI	SDI portable live video and audio streaming appliance with intuitive touch-screen interface for Transport Stream output applications (such as IPTV set-top boxes). Supports H.264/AVC and MPEG-2 in Transport Streams, plus H.264/AVC and AAC audio elementary streams. One standard definition SDI video channel; two stereo channels of embedded SDI audio. Analog video (Composite, S-video, Component), analog audio (Balanced, Unbalanced) and AES digital audio inputs available with optional breakout cable or breakout box. Includes 1st year support.	9.175,00
TouchStream TS HDi	HD-compatible portable live video and audio streaming appliance with intuitive touch-screen interface for Transport Stream output applications (such as IPTV set-top boxes). Supports H.264/AVC and MPEG-2 in Transport Streams, plus H.264/AVC and AAC audio elementary streams. One video channel from HD/SD SDI input; four stereo channels of embedded SDI audio. Compatible with SD, 720p, 1080p and 1080i inputs; HD inputs may require down-conversion (automatically performed within TouchStream) to lower resolution or frame rate for streaming output (dependent on output format). AES digital audio inputs available with optional breakout box. Includes 1st year support.	11.695,00
Additional Video Codec's for TouchStream		
VC1 Live Encoder	VC-1 / Windows Media live broadcast (streaming) module. Simultaneous archiving to files while streaming. Adds support for advanced VC-1 encoding (includes group profile, ASF muxer, audio/video elementary stream support) as well as WMV/WMA support. Includes support for DRM.	420,00
AVC Live Encoder	AVC (H.264) live broadcast (streaming) module with AAC audio. Elementary Stream output over RTP/RTSP (MPEG-2 Transport Stream muxing optional). Simultaneous archiving to files while streaming.	2.095,00
Flash AVC Live Encoder	AVC (H.264) live broadcast (streaming) over RTMP protocol to Adobe Flash Media Server. Creation of AVC F4V/FLV Adobe Flash 9 files for on-demand applications. Includes AAC-HE and AAC-LC audio, RTMP support. Supports Baseline and Main H.264 profiles; progressive output only.	920,00
Flash VP6 Live Encoder	On2 VP6 (Adobe Flash 8) live broadcast (streaming) module. Simultaneous archiving to files while streaming.	1.495,00
3GPP Live Encoder	3GPP/Mobile (H.263, H.264 and MPEG-4 Part 2 video with AAC-LC or AMR audio) live broadcast (streaming) module. Simultaneous archiving to files while streaming.	1.695,00
MPEG2 Live Encoder	MPEG-2 live broadcast (streaming) module. Output over UDP or RTP. Simultaneous archiving to files while streaming.	420,00
RTMP Streaming	Adds support to DRC Studio AVC Encoder (not included) or Ateme AVC Bundle (not included) for live broadcast (streaming) with RTMP protocol for Adobe Flash Media Server.	250,00
Accessories		
Hard Drive 500GB SATA - TS	500GB Internal 2.5 SATA Hard Drive with Shock Protection - TouchStream Only	290,00
Stream Breakout Cable	Video/audio Breakout Cable for DRC-Stream, StreamZ, StreamZ Live and TouchStream systems with DRC-1400, DRC-1600 and DRC-2600 board. [Included with systems based on DRC-1000 or DRC-2000 analog boards; optional for analog/digital models.]	125,00
StreamBOB	19" 1RU Rackmount Breakout Box for DRC-Stream, StreamZ, StreamZ Live and TouchStream systems with DRC-1000, DRC-1400, DRC-1600, DRC-2000 or DRC-2600 board.	420,00
BOB 5000	19" 1RU HD/SD Rackmount Breakout Box for TouchStream HDi models. Includes HD/SD SDI connections and AES/EBU digital audio.	495,00
TouchStream Carry Case	Rugged, custom professional carry case for TouchStream series appliance. Includes adjustable padded shoulder strap, padded wrap-around carry handle and interior pocket for breakout cables and other accessories.	330,00
TouchStream Support	Yearly support for TouchStream products (for each year from year 2 forward). Includes basic support during that year.	210,00
